

Meet Maryam Dungus and her beautiful son Imtiaz...

Maryam moved to Salford a couple of years ago. About a year ago, one of her friends told her about our level 1 Basic Cookery Course.

Maryam successfully completed this course and achieved her Level 2 Food Hygiene certificate. She then went on to do our Bistro Cookery course. Maryam has become “more creative” in her cooking and had recently made a birthday cake for Imtiaz.

As well completing the cookery courses, Maryam has also completed our IT Beginners and IT Progression courses which are run by volunteers. Her computer skills have been really useful as she has helped her husband with word processing for his PhD. In the future Maryam is planning to open a restaurant in Nigeria and will be able to apply the skills she has learned. She is interested in doing more courses, in particular bakery and beauty therapy.

Maryam makes full use of the centre and her son Imtiaz attends the Stay and Play sessions at the Children’s Centre. She has felt much better about herself since attending and feels that “the Cornerstone means a lot “to her.

In Maryam’s own words “I must commend Langworthy Cornerstone for giving me this wonderful opportunity...Thank you so much Langworthy. Long live Salford Community”.
